3 MARCH 2020

•

General research funding

- Provide \$100 billion in guaranteed, mandatory spending for new NIH research over the next 10 years to support people with disabilities.

•

Secondary education and jobs

- Abolish sub-minimum wage.
- Raise the number of people with disabilities in federal service to 14 percent of the overall workforce.
- Fully fund the Office of Disability Employment Policy.

•

Early intervention and primary education

- Fully fund the Individuals with Disabilities Education Act, plus \$20 billion.
- Increase funding for early intervention.
- Establish universal childcare.
- Implement Department of Education regulations to ensure that students of color with disabilities are treated fairly when it comes to identification, classroom placement, services and accommodations, and discipline.

•

Housing policy

- Add more than 3 million new affordable housing units, and prioritize a portion of these units to people with disabilities.

•

Criminal justice

- Pilot non-police mental health crisis response teams.

-

Healthcare

- Create a healthcare system that will eventually be single payer and that covers dental, vision and long-term services and supports.

-

For caregivers

- Create a Social Security credit for caregivers of family members.

-

Drug pricing

- Cap drug prices at 110 percent of the average international market price.
- Remove the limit on the number of drugs for which Medicare can negotiate prices.

-

Miscellaneous

- N/A
