# Article unavailable

BY **SPECTRUM**

10 DECEMBER 2021

This article, concerning a study performed in Austria by lead investigator Dr. Georg Kobinia, is currently unavailable because it is the subject of a lawsuit filed by Dr. Kobinia in the Austrian courts. The lawsuit was initially dismissed by the trial court in Vienna but was partially reinstated on 27 July, 2023 by the Vienna Higher Regional Court as Court of Appeals, which put in place an interim injunction while the matter is in litigation. We are complying with that injunction while we appeal this decision before the Austrian Supreme Court of Justice.
